

AVOID INJURY - SAFELY DISPOSE OF SYRINGES AND LANCETS

DO NOT RECYCLE

- 1) Apply this sticker to an empty #2 plastic bottle that has a screw-type cap. (e.g. bleach, fabric softener, detergent bottle).
- 2) Drop used syringes or lancets into the bottle. Don't break off the needles; drop the whole syringe in and recap the bottle.
- 3) Don't fill the bottle to the top with needles. Leave some space at the top.
- 4) When you are ready to discard the bottle, tightly close the cap and place heavy tape over the closed bottle cap.
- 5) Dispose of the properly prepared bottle in your household trash – **DO NOT RECYCLE IT.**
